

YS-Series

Carton forming process is automated to improve workability. A carton is formed automatically by simply setting sheets on magazine. The semi automatic caser serves as both carton forming and carton sealing so that it is unnecessary to form a carton separately.

Semi automatic caser with automatic carton former

Reliability from achievement

Reliability of the taping unit is proven by our achievement.

High Safety

The safety cover is made of PET with safety switch.

Stable supply

Stable supply of cartons facilitates packing process.

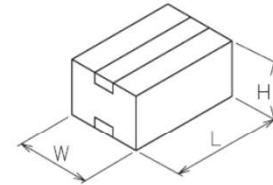

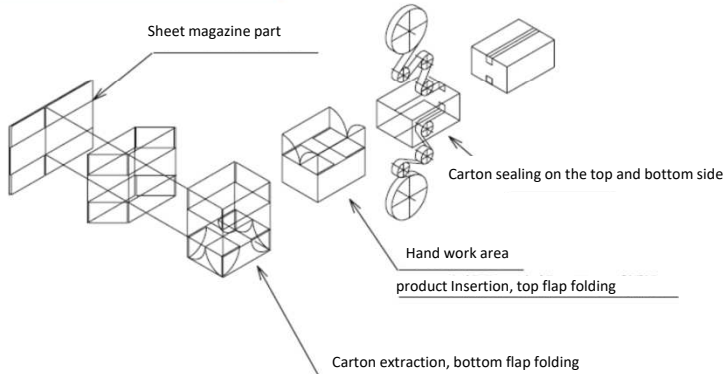

Various options

Other various options are available.

YS-002

Simple and high performance enhance productivity of production line.
